Approved science-based target

The Science Based Targets initiative has validated that the corporate greenhouse gas emissions reduction target(s) submitted by

Palo Alto Networks

have been deemed to be in conformance with the SBTi Criteria and Recommendations (version 5). The SBTi's Target Validation Team has classified your company's scope 1 and 2 target ambition and has determined that it is in line with a 1.5°C trajectory.

The official target wording is:

Palo Alto Networks commits to reduce absolute scope 1 & 2 GHG emissions 35% by 2027 from a 2021 base year. Palo Alto Networks also commits to reduce scope 3 emissions from use of sold products 40% per million USD value added within the same timeframe. Palo Alto Networks finally commits that 65% of its suppliers by emissions covering purchased goods and services, will have science-based targets by 2027.
